Facilities Management

Catering - On behalf of our clients, Norec supply the management and labour force to operate canteen, vending and coffee bar facilities. Where required we also provide buffet food and catering services for internal meetings, events and training courses. Norec are responsible for ensuring compliance with all applicable Food Hygiene regulations, purchasing and stock control of fresh, ambient and dry-stored foods and the preparation and presentation of fully costed menus to ensure profitability for our client is maintained at all times.

Cleaning - We provide the provision of necessary supervision, staff and equipment to ensure high standards are met and maintained for waste management and the domestic cleaning of offices, mess and cloakroom facilities.

Industrial Cleaning – Provision of heavy duty industrial cleaning services, including vacuum plant and high pressure hosing systems tailored to the requirements of the environment.

Management of Specialist Services – Where possible we will provide the services in house but for some specialist areas. Norec will manage subcontractors to provide items such as pest control, feminine hygiene, air-conditioning maintenance, lift maintenance and fire and emergency alarm systems.

Buildings and Grounds Maintenance – Everything from grass-cutting to changing a lightbulb. Norec will provide skilled staff to look after the fabric of buildings as well as outside grounds maintenance.

Project Management – Often our clients require refurbishment of old areas or may wish to build new. Recent projects have included the refurbishment of the canteen at Eggborough Power Station, and an office conversion and kitchen extension at E.ON Engineering Academy, Ratcliffe.

Site Security – Norec are proud to say we are an SIA Approved Contractor. We currently provide 30 security staff to manage all aspects of site security at Eggborough Power Station. This includes gatehouse, patrol and CCTV services.
